📄 PROFESSIONAL SUMMARY

Highly resourceful and driven web developer with a strong foundation in analytical problem-solving, gained from a Physics degree. Passionate about building scalable, high-performance web applications using HTML, CSS, JavaScript, and React. Adept at translating complex ideas into intuitive, user-friendly interfaces while ensuring efficiency, accessibility, and responsiveness. My physics background enables me to approach development with a logical, data-driven mindset, optimizing both user experience and web performance. Committed to continuous learning and innovation, I aim to grow alongside forward-thinking teams, contributing innovative solutions that drive both personal and organizational success.

📁 PROFESSIONAL EXPERIENCE

Zenith Bank PLC 11/2025 – Present | Lagos State, Nigeria
E-business

- **Monitor customer interactions with digital channels** (web portals, internal dashboards, service tools) while gaining exposure to enterprise-scale web systems, digital payment infrastructure, and secure data-driven platforms.
- **Assist in digital solution onboarding** (POS, payment gateways), strengthening my understanding of real-world fintech user needs and interface expectations.
- **Collaborate with IT, product, and operations teams** to identify usability issues and suggest frontend and workflow improvements.

EM Consults 07/2024 – 10/2025 | Ogun State, Nigeria
Frontend Developer

- **Developed and managed responsive web pages** using HTML, CSS, and JavaScript, ensuring clean, scalable, and interactive user experiences.
- **Enhanced user experience with interactive features** while optimizing performance through cross browser testing and modern CSS techniques.
- **Managed code efficiently using Git and GitHub**, collaborating in team-based development workflows to ensure version control and smooth integration.

HNG Tech 01/2025 – 03/2025 | Remote
Frontend Developer (Intern)

- **Constructed, executed, and launched dynamic web applications** using React.js, JavaScript, and CSS, focusing on responsive design, interactive user experiences, and seamless API integration.
- **Deployed and maintained web applications** using CI/CD tools like Vercel and Netlify, ensuring bug-free deployments while effectively collaborating with design teams to optimize workflow efficiency.
- **Thrived in high-pressure environments**, consistently delivering high-quality solutions within tight deadlines.

Intern HIC mikroLAB 2022 – 2023 | Ogun State, Nigeria
Intern

- **Engineered and implemented advanced electronic circuits**, integrating both hardware and software solutions to optimize efficiency, control, and performance in embedded systems.
- **Worked extensively with 555 timer circuits**, applying them in pulse generation, frequency modulation, and timing applications while optimizing power consumption and reliability.
- **Conducted rigorous testing and troubleshooting** of embedded systems and integrated circuits, ensuring high performance, efficiency, and seamless system integration.

🎓 EDUCATION

FEDERAL UNIVERSITY OF AGRICULTURE ABEOKUTA 2018 – 2023 | Ogun State, Nigeria
Bachelor of Science in Physics - Second Class Lower Division

CAREER CONNECT ACADEMY 01/2024 – 06/2024 | Ogun State, Nigeria
Frontend Development - Certificate of Completion

CERTIFICATES

Next.js Fundamentals, v4 
Frontend Masters

TypeScript 5+ Fundamentals, v4 
Frontend Masters

Astro for Website Development 
Frontend Masters

SKILLS

Frontend: HTML | CSS | Tailwindcss | JavaScript | TypeScript | React.js | Next.js | Responsive Web Design | API Integration

Version Control & Deployment: Git & GitHub (Branching, Pull Requests) | CI/CD Deployment (Vercel, Netlify) | Web Hosting & Maintenance

Soft Skills: Problem-Solving & Analytical Thinking | Strong Attention to Detail | Effective Collaboration with Teams | Adaptability & Continuous Learning | Time Management & Working Under Pressure | Technical Proficiency | Communication Skills
